

Responsible for the daunting task of your fire extinguishers' needs?

It's not an easy subject to conquer, the right class of fire extinguisher, for the right job, situated in the right place, and all at the right quantity! Knowing that the 'responsible person' will be held accountable in a serious event, it makes sense to ask us, the experts.

During the **free non-obligated** survey, we will visit your premises and give you practical advice based on the danger and risk within your premises to ensure that you are meeting the Regulatory Reform (Fire Safety) Order 2005.

Beware of cheap on-line deals that aren't commissioned

The commissioning of your fire extinguishers is required by your insurers. This test certifies that the extinguisher has not been damaged during transit and that it is fit for purpose. Failure to produce this document will void any insurance. So, its not as simple as finding the cheapest supplier on the web, then ticking off that job!

We can advise and supply you with your extinguisher needs **and** we also commission them before the extinguisher is mounted or placed in it's advised location.

Here is a quick guide of what's involved.

| EXTINGUISHER | | TYPE OF FIRE | | | | |
|---|----------------------|------------------------------------|-------------------|------------------|----------------------|---------------------|
| Colour | Type | Solids (wood, paper, cloth etc) | Flammable Liquids | Flammable Gasses | Electrical Equipment | Cooking Oils & Fats |
|  | Water | ✓ Yes | ✗ No | ✗ No | ✗ No | ✗ No |
|  | Foam | ✓ Yes | ✓ Yes | ✗ No | ✗ No | ✓ Yes |
|  | Dry Powder | ✓ Yes | ✓ Yes | ✓ Yes | ✓ Yes | ✗ No |
|  | Carbon Dioxide (CO2) | ✗ No | ✓ Yes | ✗ No | ✓ Yes | ✓ Yes |

Fire Extinguishers are only as good as their last Service

Once your Fire extinguishers have been in place for a predetermined time, when expired, a written inspection is needed for insurance requirements.

You can trust us to take care of everything in your servicing needs too!

We have a dedicated specialist team to ensure a seamless service and maintenance throughout the life of the contract with CIA.

All our staff are SPECIALISTS, FETA trained to service fire extinguishers to BS5306 part 3.

What's involved in the Fire Extinguisher Service?

This is a highly intensive and lengthy process. Each extinguisher will go through numerous examinations and checks, including internal and external checks, pressure checks and an interior examining using specialized equipment.

On completion of the Service, a written inspection report is issued for your 'Responsible Person' and insurers.

Wouldn't it be good to know all of your servicing costs in advance?

That's exactly what CIA's Service package provides.

Our base cost is from only £36 per year for the first 6 extinguishers and then a cost as low as £1.00 per additional extinguisher per year (subject to a 5 year agreement)
