

Time and Attendance Enterprise For Large Businesses

Maximize efficiencies with comprehensive time and data management

Time and Attendance Enterprise for large businesses

Time and Attendance Enterprise automatically calculates hours worked, breaks and overtime in real time, ensuring your system is always up to date. It also simplifies routine workforce management tasks such as adapting working times to seasonal requirements, comprehensive holiday planning, absence management, and matching resources to demand – tasks that are critical to business efficiency but can be time consuming, costly to manage and a drain on HR resources.

Time and Attendance Enterprise

- Recommended for 500+ employees
- Cost: please call for more information

Using the self-service application, employees can make requests for absences and holidays, and amend any bookings – all via the web. This enables management to quickly and efficiently approve requests and notify the employee at the click of a button.

Enterprise package includes:

Virtual terminal

Web-based workflows

Payroll integration

Integrated data analysis

Real-time automatic calculations

Our Time and Attendance software solutions also support your strategic business and cost planning with fully-integrated modules that provide clear added value for your business. Successfully implemented by numerous business sectors, our solutions support a multitude of organisations, from SMEs and manufacturing to transport and logistics, banking, insurance, and healthcare—including many in state and local authorities.

Tailor your Time and Attendance:

Select from the extra services below to complement your package:

Web workflow

Access control

Plant data collection

Staff planning

SAP communications

Time and Attendance Enterprise solutions are complemented by fully compatible terminals and a mobile app for data recording on the move, as well as a comprehensive range of access readers and locking cylinders for access control and security management.

Benefits include:

Reduced costs and increased efficiency: routine administrative tasks such as control duties, organising flexible working times, integration of collective agreements, etc. are considerably reduced.

Information anywhere and at any time: integrated data analysis provides you with the most diverse statistics. Numerous reports are available, enabling you to make detailed evaluations across different organisational units.

Web-based workflows for absences and updates management: workflows with flexible validation hierarchies reduce the load on your HR team while keeping your staff and management up to date through real-time reporting.

Below is what some organisations had to say about Time and Attendance:

“Time and Attendance has served us well over the years as our business has grown from strength to strength, it has been a very good reliable solution for us”

Garry Tilburn — MD, Reed

“The system was installed quickly and on time, it is user friendly and though we are still learning I am sure we will keep finding additional things we can utilise to our benefit. The additional functions in the system give us more information/flexibility”

**Philip Acheson-Gray — IT Manager
at Farmhouse Biscuits**
