Time and Attendance Systems

Time & Attendance System will enable you to run shifts more efficiently and optimise your employees' work patterns. After all, time is money!

Time and Attendance Systems

Simplify time management in your business and save money

Time & Attendance systems now feature electronic readers that enable employees to register their movement in and out of work. They can use either a card/tag, mobile,or biometrics such as a fingerprint or the irises of their eyes, to register their arrival, break times, and when they leave.

Choosing the right Time & Attendance system relates back to the specific needs of your business. The most important core areas of need will be based around; functionality, features scalability, and any special requirements you may have.

Choose your Time and Attendance Package

Take a look at our packages below and choose the one that best meets your needs.

- Recommended for 500+ employees
- Cost: please call for more information

Using the self-service application, employees can make requests for absences and holidays, and amend any bookings – all via the web. This enables management to quickly and efficiently approve requests and notify the employee at the click of a button.

Below is what some organisations had to say about Time and Attendance:

"Time and Attendance has served us well over the years as our business has grown from strength to strength, it has been a very good reliable solution for us"

Garry Tilburn — MD, Reed

"The system was installed quickly and on time, it is user friendly and though we are still learning I am sure we will keep finding additional things we can utilise to our benefit. The additional functions in the system give us more information/ flexibility"

Philip Acheson-Gray — IT Manager at Farmhouse Biscuits
