

Time and Attendance Advanced For Medium to Large Businesses

Get real-time attendance data from everyone clocking in over a mobile phone or PC

Time and Attendance Advanced for medium to large businesses

Time and Attendance Advanced automatically calculates employees' attendance hours, overtime, holidays and absences – all exportable to payroll in minutes – and provides evidence as proof of compliancy with working time regulations.

Time and Attendance Advanced

- Recommended for 100 employees and above
- Cost: From £110.21 per month*

Time and Attendance Advanced allows employees to register their performance from anywhere at any time. This flexible software platform features a mobile terminal that facilitates mobile employee bookings on a central or iOS device; usually the device provided by their team leader.

* Terms and conditions apply

Professional package includes:

Clocking terminal (ST25)

2x half day training

Time and Attendance software

50 key fobs

Labour

Admin kit (fob programming)

Time and Attendance programming per hour (5 shifts)

Tailor your Time and Attendance:

Select from the extra services below to complement your package:

Payroll integration

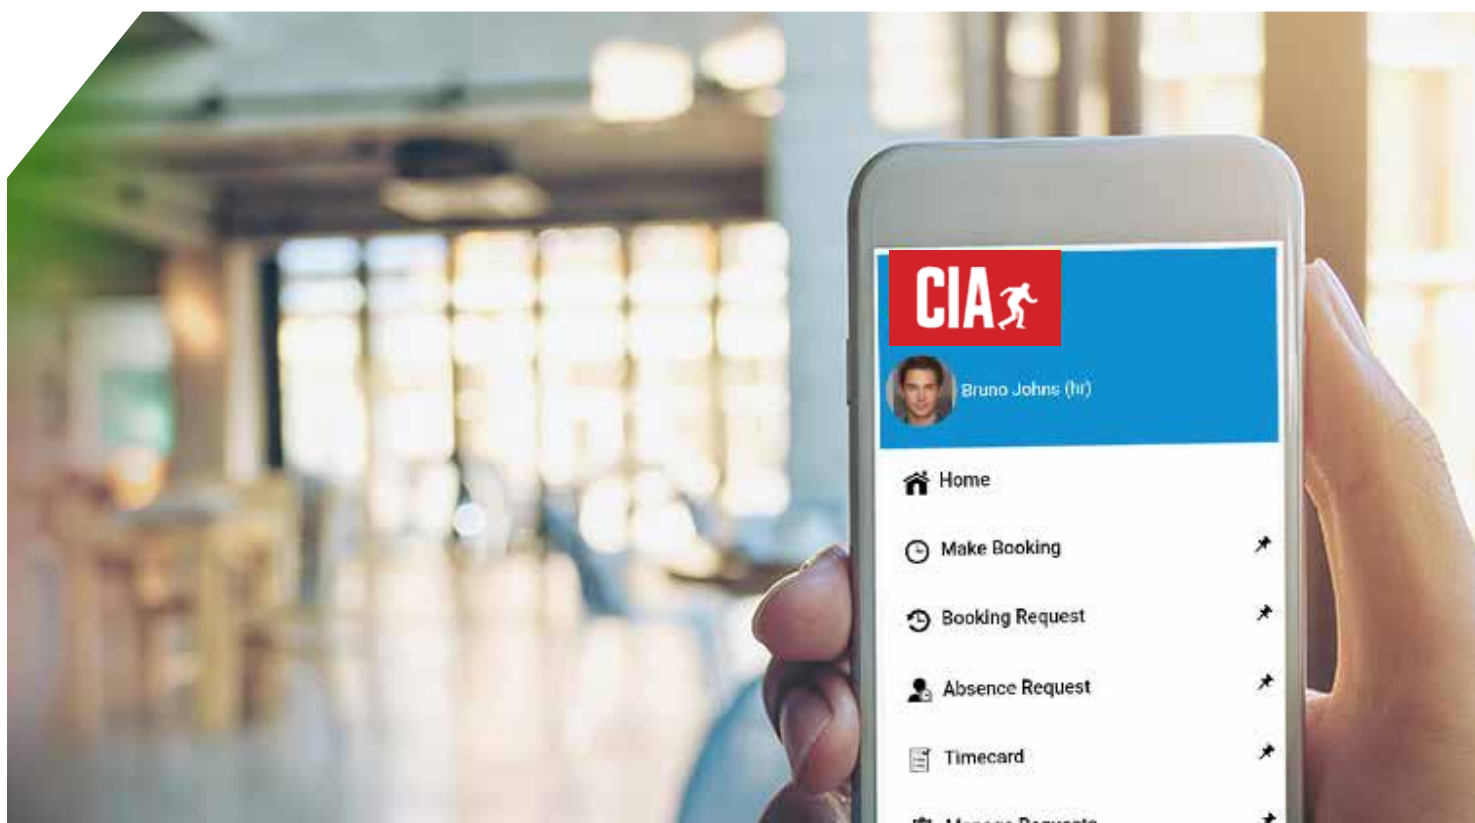

Additional training

Fire alarm roll call and assembly point

Additional shift programming (+5)

Benefits include:

-  Value-added applications: Professional Mobile covers a wide range of mobile applications that can be activated on a pay-as-you-go basis. Every application offers its own benefits, allowing you to further extend the possibilities available in the desktop web version. By default, all these applications are compatible with both Android and iOS devices.
-  Greater visibility: the Presence Indicator Panel (PIP) shows in real time who is currently present and who's not. In the mobile version, an evacuation list can be activated in cases of emergency.
-  GDPR compliance: notifications inform your employees on the procedures involved with the processing of their data.
-  Comprehensive reporting: Bradford Factor Reporting works by measuring the number of absences over any given period.
-  Greater insight: bookings and absence requests are available at touchscreen terminals. With Astrow Projects, you can measure the time employees spend on a task. This helps with staff costs and identifying any possible training needs.

Below is what some organisations had to say about Time and Attendance:

“Time and Attendance has served us well over the years as our business has grown from strength to strength, it has been a very good reliable solution for us”

Garry Tilburn — MD, Reed

“The system was installed quickly and on time, it is user friendly and though we are still learning I am sure we will keep finding additional things we can utilise to our benefit. The additional functions in the system give us more information/flexibility”

**Philip Acheson-Gray — IT Manager
at Farmhouse Biscuits**
